

Watts Select Full CutOff LED WallPack

Date:..... Location:

Product:..... Project:.....

Quantity:..... Catalog#

FEATURES

- Built in Watts Selector and photocell options
- Architecture design, Easy installation.
- Wet location rated IP65.
- Durable die-cast aluminum housing.
- Photocell and motion sensor options.
- UV-resistant polycarbonate refractor lens.
- Emergency power 4W & operating time 1.5 hours.
- TypeII / TypeIII / TypeIV distribution optics standard

SUITABLE APPLICATIONS

- Warehouses
- Factories
- Shopping Malls
- Supermarkets
- Logistic Centers

CONSTRUCTION:

Heavy die-cast aluminum alloy housing with bronze powder-coated finish. High light transmittance PC lens.

ELECTRICAL:

Available as 120-347V input. -30°C to 45°C

OPTICAL SYSTEM:

High brightness Lumileds 3030LED chips. Full Cutoff illumination

INSTALLATION&MOUNTING:

Wall Mounting with install accessories for easy installation.

WARRANTY:

5-year limited warranty. Actual performance may differ as a result of end-user environment and application

CONTROLS&DIMMING

0-10V dimming comes standard. Photocell is included.

DISTRIBUTION DIAGRAM

INSTALLATION:

1. Unscrew door with Philips screwdriver by loosening (2) screws. Confirm junction box size and junction box mounting provisions to that of the light fixture.
2. Attach the light fixture to the junction box or mounting surface.
3. Attach the appropriate wires to the light fixture wires, green to green, black to black and white to white. Secure each wire pair with a wire nut (Wiring instruction FYI.)
4. Close the door and tighten (2) screws on the door lens. Nothing should

MAINTENANCE CAUTION:

1. Review the diagrams before beginning, and make sure the fixture is grounded properly.
2. Turn the power off and wait for fixture cooling to operate.
3. This fixture has to be installed or maintenance in accordance with the application code by a professional person who familiar with the construction and operation of the product and the hazards involved. construction and operation of the product and the hazards involved.

WARRANTY:

5-YEAR WARRANTY.

If this product fail to perform satisfactorily due to defect or poor workmanship within five years from the date of purchase, return it to the place of purchase and it will be replaced, free of charge. Incidental or consequential damages are excluded from the warranty.

DIMENSIONAL DRAWING:

30-80W

100-120W

SAFETY INSTRUCTION:

- This fixture must be wired in accordance with the international electrical code and applicable local codes and ordinances.
- Proper grounding is required to insure personal safety. Carefully observe the correct grounding procedure under installation section.
- Make sure power off before installing or maintaining fixture.
- Check that voltage is compatible with fixture driver, use approved connectors for all electrical connections.

CLEANING:

1. Before touching fixture, make sure the fixture is cooling.
2. Do not clean or maintain while fixture is energized.
3. Clean lens & fixture with non-abrasive glass cleaning solution.
4. Do not open fixture to clean and touch LED chips.

WIRING INSTRUCTION:

WARNING: TURN OFF POWER BEFORE CONNECTING WIRES.

Black wire connect to L, White wire connect to N, Green wire connect to GROUND.

For 0-10V dimming, the wiring direction as below:

1. Turn off the power.
2. Connect the BLACK wire with the LINE.
3. Connect the WHITE wire with the COMMON.
4. Connect the GREEN wire with the GROUND. Caution: DO NOT connect the GRAY (-) DIM V- wire with GROUND.
5. Connect the PURPLE wire with the (+) DIM V+.
6. Connect the GRAY wire with the (-) DIM.

INSTALLATION:

Tools: Phillips head screw driver and electrical wiring tools.

The fixture must be mounted on the wall with lens facing down as shown with picture.
